

Below is a list of websites useful for finding Oregon State University faculty who do research related to biochemistry/biophysics/molecular biology and many of whom have in the past been mentors for BB students doing undergraduate research.

- Center for Genome Research and Biocomputing (about 100 faculty from many units across campus who are involved in molecular biological research in one form or another): <http://cgrb.oregonstate.edu/main/about/affiliated-faculty>
- Biochemistry and Biophysics: <http://biochem.science.oregonstate.edu/content/faculty>
- Integrative Biology: <http://ib.oregonstate.edu/directory/faculty>
- Microbiology: <http://microbiology.science.oregonstate.edu/microbiology-faculty-directory>
- Chemistry: <http://chemistry.oregonstate.edu/content/faculty-directory>
- Physics: <http://physics.oregonstate.edu/physics-faculty>
- Linus Pauling Institute: <http://lpi.oregonstate.edu/faculty-staff/listing>
- Environmental and Molecular Toxicology: <https://emt.oregonstate.edu/emt/directory/faculty-members>
- Pharmaceutical Sciences [http://pharmacy.oregonstate.edu/pharmaceutical\\_sciences](http://pharmacy.oregonstate.edu/pharmaceutical_sciences)
- Biomedical Sciences: <http://vetmed.oregonstate.edu/research/signature-areas-research>
- College of Public Health: <http://health.oregonstate.edu/research>
- Food Science: <http://oregonstate.edu/foodsci/faculty-and-staff#Faculty>
- Chemical, Biological and Environmental Engineering: <http://cbee.oregonstate.edu/faculty-and-staff>
- Psychology: <https://liberalarts.oregonstate.edu/school-psychological-science/psychology/faculty-and-staff/research-labs>
